## LONGER NECESSARY

The keen mental suffering of women troubled with unsightly hair growths is totally unnesessary. Such growths can be removed instantly and harmlessly, without the slightest fear that the hair will grow more heavily than before. Saturate the hair with a few drops of El Rado, the matchless liquid hair remover; in a few moments the hair will vanish, leaving the skin soft, smooth and perfectly clear.

White medical science knows of no chemical agent which will eradicate hair permanently without serious injury, it is an established scientific fact that El Rado will remove hair for a very long time; its action is absolutely harmless, simple and thorough. When the hair finally does reappear, it is finer instead of coarser, and can instantly be removed again for a still longer period than at first.

El Rado is becoming as standard a tollet article as face cream of tollet powder; thousands of society women use it. As a remedy and ald to good looks, El Rado has no equal, for there is not a beauty preparation in the world that can improve one's appearance more than the successful removal of an unsightly hair growth. Try a few drops on your arm; prove for your-ance more than the successful removal of an unsightly hair growth. Try a few drops on your arm; prove for your-asif El Rado does everything claimed. Your money back if you are not entirely satisfied. In 50n and \$1 size bottles, at all leading drug and department stores, or direct from the Pilgrim Mig. Co. New York. TO PRESIDENT WILSON On His View of the New Haven Road Investigation.

Mr. McReynolds' letter to the president:
"Dear Mr. President:
"Some days since I reported to you that the board of directors of the New Haven railroad had advised me that they would not carry into effect the approved proposals made by them last winter for bringing the affairs of that company into harmony with the

last winter for bringing the affairs of that company into harmony with the federal statutes.

"Following your direction, I wrote to the president of the company on July 8, expressing your views and my own in opposition to the position assumed by the board.

"Saturday last, I received a request to confer with a committee composed of members of the board on yesterday—Monday. They came here, and we discussed the situation. I emphasized the position of the government, as out-

the position of the government, as out-lined in my letter of July 9, and eneradherence to the position taken by them. They refused however, to ad-mit any obligation to conform to the Massachusetts enactment and firmly

declined to carry into effect their own proposals for an adjustment.

"During the past year you have been constantly in touch with my actions in respect of the New Haven road; and you have been good enough to express satisfaction therewith. It seems, however, not insproposals to again however, not inappropriate to again remind you of some aspects of the gen-eral situation. "Prior to 1908, the attention of the

department of justice was called to the unlawful combinations and monopolles in which the New Haven rail-road was the principal party; and in May of that year a proceeding under the Sherman law was instituted, wherein the government sought to cor-

the earliest possible moment a pro-ceeding in equity to prevent further violations of the law. Before this could be accomplished the railroad company selected a new chief officer and he earnestly asked to enter upon negotiations with me looking towards

negotiations with me looking towards an adjustment without the necessity of suit. You have been familiar with the outcome and, as the terms of the plan agreed on were published, they became generally known.

"Because of the important consequences involved directly to New Engiand and immediately to the rest of the Union, it seemed most important, first, to accomplish, if possible, a restoration of lawful conditions in the transportation facilities of that sectransportation facilities of that sec-tion with the least possible further distress to impoverished investors and unsettled industries; and I have acted

ccordingly.
"The criminal aspects of the case have been kept constantly in mind; much data bearing thereon was col-lected months ago, and care has been exercised to permit nothing which might interfere with proper prosecumight interfere with proper prosecu-tions at the appropriate time. We have not held out the slightest hope that parties guilty of criminal viola-tions of the law would escape. "In April and May last there being indication that the Interstate Com-merce Commission by examining themmerce Commission, by examining them, might immunize central figures in the unlawful arrangement, it was asked carefully to consider the effect of such

action.

"Nevertheless, Mellen and others flagrantly culpable were put upon the stand and any criminal prosecution hereafter instituted probably will be embarrassed by a claim of immunity interposed in their behalf.

"With the utmost patience and an intense desire to enforce the law in such way as to bring no unnecessary hardships upon New England or the hardships upon New England or the unfortunate holders of the railroad se-curities, we have sought to compel a
